THESE Bitters are purely a regetable compound, and are offered to the public from principle of benevolence, under the fullest contribution that they will be found a safe and sovereign semedy for Dyspessia. They have been trium-shantly tested, not only by some of the most respectable families and physicians in the State of South Carolina, who have furnished ample testimony as to their decided excellence, but also by the propriety, who, for ten years, suffered all the gloom medicare in that stubborn and distressing disease.

They possess the peculiar excellence, derired to most other Bitters, on not proving jurious by continued use. They contain not a single deletesions ingrelient, and, as seen from the directions which accompany each bottle, may be given with entire

Bluffon, S. G., 1846.

It is with feelings of gratitude as well as pleasure that I take this mothod of giving my issuinous of the great estimation which I entertain for your invaluable compound. In justice not only to the medicine, but for the lensels of others who may be suffering from the same melady, Dyspepsis, with which I was for years afflicted, I feel it a duty incumbent on me to state that I am now restored to perfect health. When I commenced taking the Colleton Bitters it was as a last recort. My debility from indigeation was so great that a cure was looked upon as almost hopeless. After taking it regularly and perseveringly for some time, my strength and digestive powers were entirely restored. I have never taken a single doss of any other medicine for more than five years past. I can now eat the richest lood without only unpleasant feelings whatever. I have also used Colleton. Bitters freely in my family for cholers a cipratum, choicing morbus, guoral debility, and as a torile after fever, with great success. As a family received the success. send you a certificate relative to the Colleton Bitters.

In the year 1838, when the cholera was in
Charleston, S. C., I was compelled to send a sevent
to the city. On his return, he was suddenly attacked with most violent pain in his bowels, so much so
as to cause apprehension that he would expire in a
short time, if medical aid could not be procured. I
immediately resorted to the Colleton Bitters, by giving a wine glass full at a done. In the course of a
very short time it acted as an emetic, and throwing
him at the same time into a profuse perspiration. I
then continued to give it in small doses, from five to
fhree tea spoonsfull, which resulted in a happy recovery. Since then I have been using it constantly
in my family, in cases of cholera morbus, cholera
infantum, districas and general debility, and in
every instance, found it, highly beneficial. Some
constitutions, however, require much larger doses
than others.
